

July 25, 2010

Dear Mr. David Koppen,

Thank you so much for the superb job you have done on my garage foundation. Given that the foundation had to be built on a very difficult slope, I am so glad that I made the decision to hire someone as highly experienced as you for the job.

The workmanship you have done has far exceeded my expectations. Thank you again so much for all your fine work, especially for being so careful with my landscape.

Sincerely,

Elisabeth Bednar
